CHARLEROI, WASHINGTON CO., PA., MONDAY, FEBRUARY 6, 1911.

SUNDAY BASEBALL MADE LEGAL BY PROPOSED BILL

orized Through Its Passage

FIGHT ON LOCAL OPTION

Measure May be Given Severe Blow by Committee This Week

Harrisburg, Feb. 6-With an adjournment since last Thursday, there has been a lull in Legislative proceedings. . The most of the gossip in the meantime at the State capital is relative to the bills that are pending and the ones already introduced. Already it is stated that over 600 bills have been introduced, and that the spiash boards of the flood that is to be let loose have only been lifted.

One of the bills that is bound to stir up a big fight is announced by Representative Letzkus. This is to legalize amateur Sunday baseball games. Mr. Letzkus, the father of the proposed bill, has made a study of the subject and stated that New York has as a law which permits amateur games wherever the owner of a field gives his consent for its use. The various Sunday organizations of the State will fight the Sunday baseball bill, and it has small chance to become a law.

It is stated that the local option bill is likely to be reported out of committee this week. The opponents of this measure do not seem in the least apprehensive, and thus far no amendments have been talked of. Should the measure develop more trength than is conceded to it, some radical changes will be proposed before the bill gets very far on its way.

A hunter's license bill, imposing a fee of \$1 on every person who hunts active working grudge against the IS in the State will be introduced to the state of improvements provided for B. latter from trespassers.

SCHEME TO SECURE **NEW MANUFACTORY**

A liberal offer has been made by a party of capitalists, who recently purchased the Clinton Van Voorhis farm. un-the Pigeon Creek valley near Monongahela. In order to attract a manufacturing plant to that section they have offered to deed 20 acres of excellent bottom land lying along the railroad and creek, to any large manufacturing plant or to a number of small plants that will accept their proposition.

STUDY BY

High School Pupils Are Taken to Pittsburg Museum.

Eighteen members of the freshman class of high school with W. A. Swick and Miss Mary Walters, high school teachers as chaperones, and guides took a trip to Pittsburg Saturday to pursue the study of ancient history, by a visit to Carnegie Museum. The morning was spent in the down town part of the city by visits to large stores and various points of interest. Then, after a picnic dinner the the party visited the museum where Prof. Swick and Miss Walters described the various styles of architecture and sculpture work shown there. Three hours were spent in the museum and the high school pupils gained a fine idea of the work done by the ancients.

Nonessen Man is Made Target for Highwaymen

ONE BULLET STRIKES ARM

Another Leaden Missle is Later Discovered in Vest Pocket

Leo Economy, of the firm of Economy Brothers, of Monessen, is a man who apparently does not know fear. And with reason. Bullets seem to have no more effect on him than an ordinary pea.

Economy closed up his store Friday night at 1:15 o'clock just before going home, and started for the restaurant to get a bite to eat While on his war there he was held up by two highwaymen. Economy is slightly nearsighted and when he was accusted failed to notice revolvers in the hands of the esteemed night gentry and reached for his own piece of artillery in his hip pocket. Then things got lively. The highwaymen hegan to shoot but that didn't faze Economy one bit. He finally got his own weapon, unlimbered and stepped behind a telephone pole to open up. The highwaymen beat it and hustled out of the uncomfortable territory. Economy's gun wouldn't work. He found Policeman Benjamin Zimmer and put him next to the attempted holdup, and Economy went to the office of Dr. Kreger to see if he. was hurt.

One bullet had lodged in the mucular part of his arm, but it did seem to hurt him any. The n chant thought there ought to another bullet around him somewhe and a search revealed it in a v pocket. He in now apparently good a new and none the worse his experience.

LARGEST CROWD SINCE CHUR WAS DED ACATED

The largest congreg ation since the dedication of the chu rch was present. last night at the Me thedist Episcopal church, where ev Angelistic services . are being conducte d by Rev. F. A. Richards. His sermon topic was 'Self Justificati / Jn.' The lack of sincerity, hypc crites in the church, were offered as reasons for self-justification, but Rev. Richards didn't leave ground to stand on for persons arguing ther eon. He said to look at the rank and file in the church and not at the ' oad sheep; to trust in the mercy of (God.

In the morning there were 40 accessions to the church. Rev. Richards preache don the topic: "What is a Christ an?" In the afternoon at 3 o'cloc k he preached to men on the topic, "The Best Business in the Mr. and Mrs. Harold McNaughton Wor Id." Services will be held every

A Tariff Defender

The leadership of the Senate in the Sixty-Second Congress is the subject of much discussion by poli *ticians in Washington. The changes . mphasized by the retirement of three taken, who for more than a quarter of Secator Hale of Maine, who will be *succeeded by a Democrat, is the oldest Senator in point of service, with a record that has been equalled by few other men in public life. He has served six years in the House and thirty years in the Senate. Senator Aldrich of Rhode Island. who has served within a few months . Iong as Senator Hale and Senator, Burrows, of Michigan, will be sucseeded by Republicans. Senator Lodge of Massachusetts, who entered the Senate in 1893, is the only member of Hong service to be re-elected this

With the retirement of the Senators referred to Senator Penrose will gank eighth in continuous service in the Senate. Mr. Penrose, entered the spot-he probably has been on that body March 4, 1897, the date of the spot too long. William McKinley's first inauguration. Of the group of Senators who have served a longer period than these three are Democrats. In the discussion of the Senate leadership the mame of the Pennsylvania Senator zavaribly is mentioned. It is conspeded that no other Senator possaesses higher qualifications for this work than Senator Penrose. He has Theen identifined with every measure of Emportance that has come before the Senate in recent years and those who zillowed the progress of the tariff Megislation of this Congress were edeeply impressed by the record he manife as a member of the committee what prepared the tariff bill and as a disbater.

With the retirement of Senator Aldrich, Senator Penrose will be reearded the highest authority in the : Senate on the sariff system of this mittee would accomplish far better country. In the battle over tariff results if they would stop building revision that [will come when the armor plate for ships and start build-Cheir lew tariff bill in the coming insist upon playing football.

Congress the Pennsylvania Senator will be the most conspicuous figure in the direction of the course of those Republicans of the Senate who will resist the attempt to destroy the protective system.

A Comprehen ive Policy

State Senator William C. Sprou! of Delaware county, known as the "father of good roads legislation" in this State, has announced the outline of the bill which he will introduce in the present session. He is confident that it will receive the support of both breaches of the Legislature and of Go ernor Tener.

The plan proposes a reorganization 'the State Highway Department. It is proposed to place the maintainance of roads throughout the State under the supervison of district superintendents somewhat along the lines of our school system. State engineers will prepare plans, and the State will contribute to the cost of contruction and maintainance. The State Highway department, with the approval of the Governor, will prepare plans for main or market roads connecting McIlvain, president judge, on the the county seat and the principal towns original which was in typewritten throughout the State.

Further details are to be worked out, the idea being to inaugurate a continous policy of road construction State. This bill should commend it-alf to taxpayers for the direct saving it will effect in each locality, and to the public in general for the e promic benefits it will confer on the my pleasure to look over for years."

The Sunny Side of Superstition. That there is anything genial, cheering or therapeutically valuable about superstition may seem a tall statement. The adjective generally associated with it is "dark." On the contrary, there is something very brightening about a four leaf clover. Who is not a little more of an optimist for picking up a borseshoe? What lonely farmer's wife, stormbound on a winter afternoon, with unwelcome leisure on her hands, but feels a little quickening of the pulse as she drops ber seissors and beholds them sticking up in the carpet or discovers that she bas laid au extra place at the table? Compana signs are the commonest and velcomed of all superstitions. The sissors, the needle, the dishcloth, the firk, the Saturday sneeze, all inculcate pospitality and reward it by an unexpected visitor. If the needle slants as h stands up in the crack of the floor

mappiness and Joy.

Happiness, according to the original use of the term, is that which happens or comes to one by a hap-that is, by an outward befalling or favorable condition. It is what money yields or will buy-dress, equipage, fashion, luxuries of the table-or it is settlement in life, independence, love, applause, admiration, honor, glory, or the more conventional and public benefits of rank, political standing, victory, power 401 Crest Ave. --all these stir a delight in the soul. which is not of the soul or its quality. but from without; dence they are looked upon as happening to the soul and, in that sense, create happiness. Joy differs from this as being of the soul itself, originating in its quality. And 'his appears in the original form of the word, which instead of suggesting a hap literally denotes a leap or spring * * The motion is outward and not toward, as we conceive it to be in happiness. It is not the bliss of condition, but of character.-Dr. Horace Bushnell

Concealed Weapons.

Once in a college town the rumor that students were carrying concealed weapons reached the ears of the local police. The chief at once issued stringent orders that the heinous practice should be stopped. One day a group of them passed a policeman, and one of the students in so doing put his hand to his hip pocket. Then, as if recollecting himself in time, he hastily withdrew it and looked sheepishly at the policeman,

"What have you in that pocker?" the latter asked sternly.

fusiend of answering, the student and all his companions, as if panic stricken, started to run. After a chase all the students were cornered and ordered to deliver up whatever they had in their hip pockets.

Meekly they obeyed. Each one carried a corncob. The remarks of the policemen cannot possibly be recordd.-Philadeiphia Ledger.

HISTORY ON A TUSK.

Picture Made by a Cave Man Millione of Years Ago.

Long ago, so long that even a scienlist would hardly dure venture a guess as to the date, a man clad with only a wild beast's skin about his loins wassitting at the mouth of a cave in one of the rocky highlands in what is now southern France. He was scratching with a sharp flint on the fragments of an ivory tusk, perhaps picturing for some youthful admirers adventures shrough which he had passed or animals be had shin. That ivory chip was stored away as a treasure, to be hist and forgotten after the cave man's death. One day a man named Lartet, digging in the cavern floor, found it. On it was scratched a very fair representation of the bairy elephant probably at once the oldest picture and the oldest human record in existence.

We know the cave man was a faithfull workman, for the melting ice fields of Siberia have yielded a perfect specimen of this extinct mammal, and the paleolithic picture is a true copy. Not only has this ancient sculptor given us a sample of the earliest art, but he has left us, more valuable than all, a historical record of his time, for this rude picture is simply a page from the cave man's history 'which, translated: into twentieth century English, says, "Men, thinking men, were contemporaneous with the hairy elephant." No record that any of humankind.

have ever left is balf so ancient as this. The eldest Egyptian papyrus in a thing of yesterday compared to this paleolithic sculpture. While the caveman was living in Europe the valley of the Nile was yet only a wild waste. Egypt was not yet Egypt, and civilization as we know it had scarcely made a beginning.-Lippincott's.

MISSION OF THE LAND.

To Produce Commodities For/the Serve ice of Mankind.

The mission of the land is to produce and keep on producing food, livestock, lumber and other commodifies for the service of man. He who owns land and is indifferent to this is guilty of a moral wrong, and he who takes good land out of commission and suffers it to lie unproductive and useless is guilty of a greater one. This is the only criterion by which we can properly judge of the right of ab-individual to own land in large tracts,

The good results attendant upon small individual holdings are satural, The purposes of nature in the apward evolution of man are usually better carried out in this way, and not because, as is so frequently argued, every man has an inherent right to its ownership. The lazy, the incapable and the densely ignorant assuredly have no such right, and land is too precious and its mission too high to be thus wasted

tate can farm his land as well as or better than if 'it were in small hold ings; if, following the precept of Swift be made two ears of corn or two blades of grass grow where one grew before: if he supply his section with a well and good. No one with any knowledge of economics could say be was doing any injury to the world or markind. It is not the amount of land that he owns, but what he does with it for which he is morally responsible. - David Buffum in Atlantic.

de lace But as a

The Salon.

The French academy was originally -a junction of the drawing rooms of the Marquise de Ramboulilet and her -daughter, Julie d'Augennes, Duchesse -de Montausier The salon as a meeting place for conversation and the production of beaux esprits and writers mud and filth on pattens. The cus hardly existed before these ladies tom was retained, and in spite of opened that of the Hotel de Rambouillet. Prior to this social event women **-of-tiptop**-quality-and-rich-bourgeoises. received their company in their bed rooms. There was nothing answering to the English parlor or the Italian hall of conversation. The bed, as in the sleeping room of Louis XIV., was surrounded by a balustrade, outside of to visit remained standing it would have been shockingly unmannerly of them to step over the barrier. The lady of the house, dressed in her best dishabille, sat on the edge of the bed Ladies calling went within the balustrade and sat on folding stools, or hassocks, according to rank and age. Mme. de Lafayette painted from life in describing in "La Princesse de ·Cleves" a conversation on love, in which the dauphiness took the lead reclining on her bed.-London Truth

BRAINY BABY.

John Stuart Mill Was a Genius at Three Years of Age.

At three years of age John Stuart - Mill began the study of Greek, with "arithmetic as an evening relaxation." At eight be began Latin, Euclid and algebra and had to act as tutor to the younger children. He was a stern and efficient futor.

At twelve he began scholastic logic and political economy-the latter his main lifework.

At fourteen, while paying a long visit to Sir Samuel Bentham in southern France, be learned French as a relaxation from studying two or three hours before breakfast, five hours between breakfast and dinner and two or three in the evening. Being for the time master of his own hours and not subject to a stern father, he took lessons also in his spare hours in music, singing, dancing, fencing and riding, but never became proficient.

At sixteen Mill could speak in debate with adults with ease and freedom. At eighteen he contributed to the Westminster Review. At twenty-one he was made assistant in the India office and received a large salary for those days.

But Mill was bald at twenty-two. He did not marry until he was fortyfive. He himself said: "I never was a boy. It is better to let nature have its own way."

Jewelry Store Romances. A wedding ring whose scratched and dulled surface bespoke years of bard service at washtub and dishpan lay on the jeweler's work table.

"Why has it been laid up for repairs?" a visitor asked. "Has marriage proved a failure?"

"On the contrary, it has turned out a great success, and the ring has been brought back to bear witness," said the jeweler. "See this new inscription, 'Ten years of fidelity and love.' That sounds pretty good, doesn't it? No failure there Five or ten years from now, if they are both alive, some body will probably add another post script and so on at regular intervals to the end of the chapter Jewelers meet more of these little romances than the unsentimental person would dream of."-New York Sun

No Right to Live.

,Beggar-Won't you give me some money, professor? My money is all gone, and I can't live.

Professor-How old are you? Beggar-Forty years, sir.

Professor-Forty years! Don't you know that according to the latest mortailty tables the average age of the male population of Europe reaches only thirty-four years and five months? Statistically you have no right to live any longer anyway!--Meggendorfer

Steel Ren Helps Forgers. The crime of forgery has been facilitated and increased by the modern introduction of metallic pens, gold and steel, says a writer in the Indianapolis News. The old fashioned quill pen was smooth and pleasant to write with, though it sometimes balked and sputtered, but it did not lend itself to skillful imitations as easily as the metallic pen does. The crime of forgery doubtless has been promoted by the almost universal education of modern times. In an age when everybody writes and when many are skillful penmen forgeries are much more frequent than they were centuries ago, when the person who could handle a pen was an exception. Many modern criminals make a living by committing forgeries, victimizing hotels, banks, capitalists and busi ness men generally.

Domestic Economy. "Hey, mon," exclaimed the braw, bonnie north countryman, "thrift is a

wunnerful thing!" "Yes," replied his English traveling companion. "You're right there. Now. I gave my wife a ten pound note to manage on last time I was away, and -would you believe it?-instead of exceeding it she saved nearly a sovereign out of it to buy herself a hat?"

"That's nowt," replied the Scotsman. "My wife gives the kids ha pennies apiece to go to bed supperless; when they're asleep she takes the ha'pennies off on 'em agécan, and then she makes 'em do wi'out ony breakfasts for losin' 'em! Hey, mon, that's thrift!"- London Scrape.

A Venetian Fashion.

Fashions were no less eccentric four centuries ago than they are today. "Before the streets of Venice were paved (in the thirteenth century)," says Mr. William Boulting in "Woman In Italy," "ladies went though the sumptuary laws the patten became beightened until women of rank stood on false feet half a yard high in the sixteenth century. They were unable to walk without the support of one or two gentlemen or servanta."

A curiosity in banquets is mentioned by the same writer. It was a wed ding feast at Milan and consisted of which gentlemen who had dropped in fifteen courses, "each being introduc ed by living specimens of the animals that composed it."

> Tále of a Snake. "Before he went fishin'," said the town story teller, "he swallowed 'bour a pint an' bulf of snake bite remedy, an' of course you know what that is. Well, after the snake bit him the reptile cut all sorts of capers, kaze the remedy went straight to its head. Last : thing it tried to do wuz to swaller its tail, an' it got itself in the form of a hoop, an' I'm a liar ef the children didn't roll it around all day!"-Atlanta Constitution.

> > A Born Diplomat.

"Splendid" exclaimed the old colonel as C company passed the saluting base.

"Did you bear wot ole nasty face ses?" No. 3 of the front rank asked

"Stand fast after parade, No. 4, for talking in the ranks!" snapped a sergeant from near by.

"It wasn't me talkin'!" muttered No. 4.

"You'd better not git two on us in trouble," advised No. 3 in a whisper "Talking while marching past!" echred the adjutant. "What on earth did

you find to talk about then?" "As we was passing the salutin base," explained No. 4. "the colonel ses, 'Splendid!' 'Yes,' I ses to meself. an' you've got the smartest officer in the British army to thank for makin' us splendid, and that's our adjutant."

"Er-sergeant, send the man away and don't bring such frivolous complaints before me again," snapped the adjutant.-London Answers.

A Sad Case.

An Atchison man has lain in an unconscious state ever since 10 o'clock last night. Everything has been done to arouse him today, but all efforts are unavailing. His friends are greatly alarmed. They fear he may never regain consciousness. It seemed that yesterday evening right after dinner the man picked up his hat, put on his overcoat and, although his wife was sitting right in the room, she did not say, "Where are you going?" He walked out of the house. At 10 o'clock in the evening the man returned. He walked into the room where his wife sat and took off his bat and overcoat. She smiled at him pleasantly and did not say, "Where have you been?" The man fell unconscious to the floor.-Atchison Globe.

African Elephants. --

In portions of Africa the natives believe when a herd of elephants is alarmed and runs away the bulls, if necessary, pick up and carry on their tusks the little ones which may not be iftile ones when first born weigh not We do not know that any white man has ever seen this, but the natives insist that it is done. - Forest and Stream | thrust.

Ancient Bridge Superstition. A primitive notion existed among the Romans and other races that a bridge was an offense and injury to the river god, as it saved people from being drowned while fording or swimming across and robbed the deity of a certain number of victims which were his due. For many centuries in Rome propitiatory offerings of human victims were made every year to the Tiber. Men and women were drowned by being bound and flung from the wooden Sublician bridge, which, till nearly the end of the republican beriod, was the one and only bridge across the Tiber in Rome.

With an Eye to the Future. "It would probably take many gen erations of adversity to train Americans into the farseeing thriftiness of my people." once observed an American of Scotch birth. "I remember, a case of a Scotchwoman who had been promised a new bonnet by a lady Before she undertook the purchase the lady called and asked the good wo-

"Would you rather have a felt or a straw bonnet, Mrs. Carmichael? "'Weel,' responded Mrs. Carmichae thoughtfully, 'I think I'll tak' a strae ane. It'll maybe be a mouthfu' to the

That English Complexion

coo when I'm done wi' it' -Lippin-

The complexions of the English have often been exploited for our benefit. The damp climate and the exercise out of doors produce the red, they say. But on examination it proves to be not the red of the rose, but the red of raw beef, and often streaky and fibrous at that. The features are large and the face high colored, but it is not a delicate pink, tit is a coarse red. At a distance the effect is charming, bright, refreshing, but close to often rather unpleasant. Here the features of the women, even the features of the beautiful women, are moided, while the features of our beautiful American women are chiseled .-- Scribner's.

Two Dimensional Vision. '

Most people do not know that they ought to be very thankful for having both eyes in one plane instead of having them one on each side of the head. If the latter obtained no one could tell that an object had more than two dimensions until experience and the sense of touch educated the brain to it. Any one can try it for himself. Shut one eye and look at different objects. They appear flat. With binocular vision two views of each object are obtained and neither is exactly like the other, so the idea of depth comes in.

The most easily shown example of the difference is as follows: Take a ring and hold it about two feet from the eye. With one eye closed it will take at least five trials to thrust a pencil through the ring, whereas with both eyes open it can be done on the first trial

All animals with eyes on opposite sides of the head labor under this disadvantage, as do all in ects. It is called two dimensional vision, as the idea of depth is not possible. All this is on account of the image thrown on the retina of the eye being in only two dimensions.-Philadelphia Press

Woodcarvers of Burma.

The woodcarvers of Burma are the most skilled in the world. They select and cut the best logs along the Irawaddy river in the dry season, and these are thrown into the shrunken stream. There they lie until the freshets of the rainy season lift them and bear them down to the populous cities

Then huge elephants are employed to drag the heavy logs from the stream and take them to the sawmills. They are then worked up into timbers suitable for the woodcarvers. The carvers use the figure of Buddha or some other emblem concerning the part. The details are worked out in a careful way.

Sterns of boats are carved in an would be worth a fortune in this country. The prow of the boat is usually ornamented with a figurehead of very elaborate carving. The art of woodtaught by their fathers. - Wichita Eagle.

The Restaurant Piccolo.

Writing from Dresden, an American would look in vain in our country. That is the piccolo. You may think three weeks ago." that I mean a musical instrument and that any orchestra in any country might have one of these, but you are wrong. My piccolo, the one at the restaurant, is a human being. He is assists the regular waiters. He wears the regulation waiter's costume and looks funny in his spiketail coat. He is as solemn as a funeral, knows how to extract a tip and for the high priv flege of retaining his place and taking his first degree as a waiter must enfure much abuse at the hands of the head waiter and his underlings. He is a funny little fellow, this piccolo, who because of his appearance could never prosper in our country."-New York Tribune.

His Sarcastic Friend.

He was very proud of his new autoable to keep up with the herd. These mobile-talked automobile, dreamed au-, young college looking fellow banging tomobile, read automobile. Finally to more than 200 pounds and of course his friends he became a nuisance, and might readily be carried, as stated, each to himself swore softly that he would bide his time and at the proper moment give him a little verbal

Fhially one long suffering individual was asked to go for a ride. Excuses were of no avail. He was bundled Into the machine and taken for a spin through the parks and over the boulevards. In due course of time, without any serious mishap, they pulled up at the Automobile club. The auto crank | make a compact water tight mass, and his guest were soon surrounded by several of their friends.

"How did you enjoy your ride?" was asked of the auto crank's friend.

"Until today I never thought an automobile could go so fast," was his reply. (Here the auto crank was all attention. That was some praise for his car. Right out in public too. That would silence some of the scoffers who

Not the Same.

On one occasion when "The Mikado" was being rehearsed Gilbert called out from the middle of the stalls, "There is a gentleman in the left group not holding his fan correctly." The stage manager appeared and explained. "There is one gentleman," he said "who is absent through illness." "Ah." came the reply from the author in grave, matter of fact tones, "that is not the gentleman I am referring to." –Dundee Advertiser.

A Silent Partner.

Nibbitt-That woman who just went out is the partner of your joys and sorrows, I suppose? Rufton-She's partner to my joys all right, but when it comes to my sorrows she slips over to see her mother.

needn't expect a single thing; that we'd scrape round in the kitchen if necessary and pick up whatever we could and that, as I hadn't let you know, that was the best we could do. Mrs. Bingo-What did you tell them

Bingo-it's the truth, isn't it? Mrs. Bingo- Certainly not. As if it makes any difference to me how many triends you bring home! I'll show Jou!-London Tit-Bita.

"Oran Amok i"

The Bloodthirsty Malay When He Is Maddened by Frenzy.

"Amok" is a religious tanaticism, r madness under which a man makes uphis mind to kill any one he can unti' he himself is killed. Brought on by drink or religion or from whatever cause, the process is the same. The madman seizes his croese and rushes headlong down the street, cutting at every one he meets. To any one who has seen a creese or a parang further detail is unnecessary.

A man running amok is as a dor with hydrophobia, but the panic cau: ed by the former is by far the worse Like the mad dog, the madman is followed by a noisy a tibble, who sooner or later run into their man and extermnate him. When this vengeful rabbic is made up of bloodthirsty Malays and Chinamen its wild rage and fury are beyond control, beyond description The clamor and bloodcurdling yells of the pursuing crowd and the ever near ing shout of "Oran amok, oran amok!" are incidents which can never be forgotten by any one who has seen or heard them. The bravest qualls when suddenly turning the corner of a street his ears are greeted with the cry of "Oran amok!" and a few yards off he sees a Malay running straight at him brandishing in his hand the blood; creese with which he has already slaughtered all in his way.-London Chronicle

Guilty Anyway.

The most striking instance of a vanshed man coming again to light to 'ake part in legal proceedings is that' which occurred in a case where Daniel O'Connell was defending a man in- | protecting the ice beneath, just as dicted for murder. The case for the prosecution seemed as clear as possible, and O'Connell contented himself Buddhistic worship in the greater with fewer questions than were to have been expected of so eminent a cross examiner. When the case for the crown had closed he announced that elaborate manner, and some of them he had but one witness to call, but that witness was important to the case. He was the murdered man, very much alive. There was no doubting the man's identity-everybody knew carving is handed down in the fami- it. The judge therefore turned to the lies in Burma, the children being | jury and directed them to acquit the prisoner. To his amazement, however, they returned a verdict of guilty. Asked for an explanation, the foreman observed that they had no doubt that says: "There is at least one thing in . the prisoner was innocent of the mura German restaurant for which one, der. "But." he added, "we find him guilty of sthealing my ould gray mare

Lacked Insight.

On a plantation down south the own er came out one morning and, speaking a boy twelve to fifteen years old, who, to an old negro at work in the yard,

"Mose, where is the hoe?" "Hit's wid de rake," replied Mose removing his hat.

"Well, where is the rake?" "Why, massa," returned, Mose, with

some surprise, "hit's wid de hoe." "Where are they both, then?" asked the owner, with rapidly rising anger. "Lor', massa, dey's bofe togedder. Hit 'peers to me dat you is mighty onreasonable dis mornin'."-Lippincott's

Getting Even With Him.

Magazine.

"Will you please pull the bell?" said an elderly woman in a street car to a to a strap in front of her,

"No, madam, but I shall be glad to pull the cord which rings the bell," he answered "Oh, never mind," she said. "The

cord is connected with two bells-front and back-and you might stop the wrong end of the car."-Philadelphia

Recipe For a Flower Garden.

Take twenty square yards of sand and pebbles, stir in sufficient clay to ram down hard and score the surface with a rake. Add carefully ten packets of seeds of the most magnificent flower known that will grow anywhere and under any conditions, throwing up a continuous succession of enormous flower trusses from March to November, each petal five inches across and of the richest and most glowing tints. This is the commonest of all flowers and will be found listed on any page of any florist's catalogue. Set the whole out to rise, keeping it moist and warm. After allowing the mass to rise four months sprinkle red spiders and green aphides plentifully over the top and soak well with tears. The net result may be preserved in a small bottle of alcohol for future reference.-Philadelphia North American

A Craving For Sweets.

Advocating the use of sweet fruits preserves, sugar and good candy by children, Dr. Woods Hutchinson in Success says that a craving for sweets is nature's call for the substance which is "a full blown member of the great trinity of nutrient materials, sng ar (carbohydrate), meat (protein) and fat. Sugar is wood, coal, gasoline for the muscle engine. Every time the tiny engine gives one of its rhythmical explosions-that is to say, when a mus cle contracts-a certain amount of sug Bingo-Yes I told them that they ar is burned up. It is fortunate for people whom a mistaken conscience deprives of tweets that the human body can manufacture sugar out of many foods, out of ment, milk, vege tables and grains; otherwise the body would go into the desperate business of manufacturing sugar out of its own tissues, which is precisely what diabeties did in the days when this discase was supposed to be due to too much sugar in the food and physicians tried to cure it by cutting sweets and sweetmakers out of the nationt's diet.

Most's House, white. It was the bubit of Charles H. Hoyl,

the diamatist, to invite aimost everybody he met to come up and spend a few weeks with him at his summer bome in New Hampshur.

One eight Hoyt, Bert Dasher W. H. Currie. Urank McKee and severat of cir house guests of Hoyt were sitting on the veranda of Hoyf's summer Louse waiting for dinner. The train had just arrived and they saw an old farmer and his wife coming up the path "Who are they?" asked Hoyt "1

never saw them before." "The dickens you didn't," repaired Curra "That is that old chap ano his wife you talked to over at Spring

field and invited to visit you." "Oh, well," said Hoyt, "maybe they are just coming in to dinner will take the night train back."

Then he looked again and saw the hired man behind the farmer and his wife wheeling a big trunk on a wheel

"No, by George," shouted Hoyt, "they are here for a run!" And they stayed a month.-Cleve

Gardens In the Ice. A glacier when it dislodges itself and

sails away over the Arctic ocean never travels alone. In the wake of every large one floats a line of similar com panions. The Eskimos call this phenomenon "the duck and ducklings," and any one who has watched the progress of the wild duck followed by her brood will appreciate the aptitude i of the name. Strange as it may seem plants grow and blossom upon these great ice mountains. When a glacier is at rest moss attaches itself to it. sawdust does. After a time the moss decays and forms a soil, in which the ham's Vegetable Compound. seeds of buttercups and dandelions. brought by the wind, take root and flourish. Those who have traveled much in arctic lands say the poppy does not bloom during the brief north ern summer.

Practice and Preaching. "For the love of heaven, Amanda," said the Rev. Dr. Fourthly, calling to his wife in tones of thunder "come and take this squalling baby out of the room before she drives me crazy. I'm writing a sermon on Bearing One Another's Burdens," - London Til Bits.

The Great Trouble.

"It is every woman's duty to keep young as long as possible," she said "Yes," be admitted, "but the great trouble is that so many young women insist on keeping young after it is im possible."—Chicago Record-Herald.

He Rallied.

First Physician-Did he rally from the operation? Second Physician-Well, I should say so; just look at that black eye he gave me.--Exchange.

When you make one mistake don't make another by trying to lie out of it Nothing More to Be Said.

"My wife always lets me have the had last word," remarked the meek looking

"Indeed!" exclaimed his friend in tones which implied a doubt of the other's veracity.

"She does, really. Whenever I say "Yes, my dear, you are quite right,' she stops talking immediately.

Her Little Joke.

"When Harold proposed to me," said Maud, "I told him to go and ask papa." "But you don't really care for him?" said Maymie, "Of course not. But I do so love to play little jokes on papa." -Washington Star.

Nothing is little that is our duty, and common life with homely surroundings is the best discipline for most of

What She Would Do.

"Johnnie, dear," said his mother, who was trying to inculcate a lesson in in dustry, "what do you suppose mamini. would do for you if you should come to her some day and tell her that you loved your studies?" "Lick me for telling a falsehood," said dear little Johnnie with the frankness of youth

A Quick Return Business.

"You said you were going into some business that would bring you quick returns," said a young fellow to his

"I did," was the answer. "I am sending manuscripts to the magazines."

About Face.

Miss Prude-1 just heard that Mr. Upron had an accident-in fact, that he broke his-ah-er-limb, you know Do you know how it happened, Mr Jones?

Mr. Jones-Why-er-he was gathering apples, you see, and he fell from the-aw-er-that is, the leg of the tree.-Ladies' Home Journal

An Old Alarm Clock.

At Schramberg, in the Black forest, there is a respectable alarm clock that warned sleepers it was time to get up when Charles I. was king of England This was made in 1680, and it is deem ed a remarkable piece of workman ship. In form it resembles a lantern wherein is a lighted candle, the wick of which is automatically clipped ev ery minute by a pair of scissors. The candle is slowly pushed upward by a spring, which also controls the mechanism of the clock, and at the required hour of waking an alarm is sounded. and at the same time the movable sides of the lantern fall, and the room is dooded with light.

YEARS OF

All Relieved by Lydia E. Pinkham's Vegetable Compound.

Sikeston, Mo. - "For seven years I suffered everything. I was in bed for four or five days nonth, and so weak could hardly walk. cramped and had backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors

gave me medicine to times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk toevery suffering woman and gir'"

Mrs. Dema Betitune, Sikeston, Mo. The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pink-

It is more widely and successfully used than any other remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means had failed. Why don't yo :tryit?

Honest Advice to Consumptives

Somehow there exists a vast amount of skepticism as to the possibility of curing Consumption. We state none but facts, and are sincere in what we assert. If ourselves afflicted with Tuberculosis, we should do precisely what we ask others to do—take Eckman's Alterative promptly and faithfully. The reason we should do this, and warrant we have for asking all Consumptives to take it, is that we have the reports of many cures, one of which follows:

1619 Susquehanna Ave., Phila. Pa. Gentlemen: "For two years I was afflicted with hemorrhages of the lunger.

many cures, one of which follows:

1619 Susquehanna Ave., Phila. Pa.
Gentlemen: "For two years I was afflicted with hemorrhages of the lungs, the number totaled nearly one hundred. Our family physician advised another climate, as to remain would probably be fatal; however, I remained, and in February of 1902, I was taken with a severe attack of pneumonia. When I recovered sufficiently to walk about the house I was left with a frightful hacking cough, which no medicine I had taken could alleviate. I was again advised to go to another part of the country. It was at this time, March. 1902, that I learned of Eckman's Alterative. In a short time my cough was gone and I was pronounced well' or 'cured.' Since that time I have had two slight attacks of pneumonia and I have resorted to no other medicine to effect a cure.

I am at present in excellent health and o effect a cure.

to effect a cure.

I am at present in excellent health and feel that as long as I can obtain Eck-man's Alterative, I have no fear of Consumption. I cannot speak too highly for the good it has done."

A HARD TASKMASTER. ..

Agassiz Forced His Pupils to Find Out For Themselves.

When I sat me down before my tin i oan Agassiz brought me a small rish. placing it before me with the rather stern requirement that I should study it, but should on no account talk to any one concerning it or read anything concerning fishes until I had his permission so to do. To my inquiry, "What shall I do?" he said in effect: Find out what you can without damaging the specimen. When I think that you have done the work I will question you." In the course of an hour I thought I had compassed that fish. But Agassiz, though always within call, concerned himself no further with me that day nor the next nor for a week. At first this neglect was distressing. But I saw that it was a game, for he was, as I discerned rather than saw, covertly watching me. So I set my wits to work upon the thing and in the course of a hundred hours or so thought I had done much, a hundred times as much an seemed possible at the start. I felt full of the subject and probably expressed it in my bearing. As for words about it then, there were none from my master, except his cheery "Good morning." At length on the seventh day came the question. "Well?" and my disgorge of learning to him as he sat on the edge of my table, puffing his eigar. At the end of the hour's telling he swung off and away, saying, "That is not right,"

I went at the task anew, discarded my first notes, and in another week of ten hours a day labor I had results which astonished myself and satisfied him. Still there was no trace of praise in words or manner. He signified that it would do by placing before me about a half a peck of bones, telling me to see what I could make of themwith no further directions to guide me. Two months or more went t. this task, with no other help than an occasional looking over my grouping with the stereotyped remark. "That is not right." Finally the task was done, and I was again set upon alcoholic specimens. - "Autobiography of Professor Shaler" in Atlantic.

Olden Tea Table Etiquette.

Ten table etiquette was somewhat complicated in the days of that "hardened and shameless tea drinker." Dr. Johnson, when many people thought nothing of drinking ten or twelve cups at a sitting. It was considered proper for the cups and saucers of a party of tea drinkers to be all passed up to the Mrs. Hughes of McKean avenue hostess in one batch when repleuishspent Sunday in Donora with friends | ment was considered necessary, and in order that each person might be sure Mrs. Felix Rossomme has returned of getting back the right cup the tea not require any more were supposed to place the spoon in the cup. And this H. M. Smith was a Sunday visitor writer remembers a very ancient dame teaching a small boy to place his spoon in his cup after the first cup had been emptied. He wondered for the reason. " Now he knows that tea was were not expected to ask again. -St.

SUNDAY BASEBALL MADE LEGAL BY PROPOSED BILL

Amateur Games Auth-Street Railway orized Through Its Passage

FIGHT ON LOCAL OPTION

Measure May be Given Severe Blow by Committee

This Week

Harrisburg, Feb. 6-With an adournment since last Thursday, there ian been a luli in Legislative proceedngs. The most of the goseip in the neantime at the State capital is relalive to the bills that are pending and he ones already introduced. Already t is stated that over 609 bills have been introduced, and that the aptach poards of the flood that is to be let pose have only been lifted.

One of the bills that is bound to tir up a big fight is announced by Representative Letzkus. This is to legalize amateur Sunday baseball games. Mr. Letzkus, the father of the proposed bill, has made a study of the subject and stated that New York has as a law which permits amateur games wherever the owner of a field gives his consent for its use. The various Sunday organizations of the State will fight the Sunday basesail bill, and it has small chance to secome a law.

It is stated that the local option pill is likely to be reported out of committee this week. The opponents if this measure do not seem in the at approbensive, and thus far no smendments have been talked of, Should the measure develop more strength than is conceded to it, some radical changes will be proposed beore the b.il gets very far on its way,

Nonessen Man is Made Target for Highwaymen

ONE BULLET STRIKES ARM

Another Leaden Missle is Later Discovered in Vest Pocket

Leo Economy, of the firm of Economy Brothers, of Monessen, is a man who apparently does not know fear. And with reason. Buliets seem to have no more effect on him than an

Economy closed up his store Friday night at 1:15 o'clock just before going home, and started for the restaurant to get a bite to eat. While on his way there he was held up by two highwaymen. Economy is slightly nearsighted and when he was accusted failed to notice revolvers in the hands of the esteemed night gentry and reached for his own piece of artillery in his hip pocket. Then things got lively. The highwaymen hegan to shoot but that didn't faze Economy one bit. He finally got his own weapon, unlimbered and stepped behind a telephone pole to open up. The highwaymen beat it and hustled out of the uncomfortable territory. Economy's gun wouldn't work. He found Policeman Benjamin Zimmer and put him next to the attempted holdup, and Economy went to the office of Dr. Kreger to see if he.

One builet had lodged in mucular part of his arm, but it didj seem to hurt him any. The m chant thought there ought to another bullet around him somewhe and a search revealed it in a v pocket. He in now apparently good a new and none the worse his experience.

The Iradership of the Senate in the Sixty-Second Congress is the subject of much discussion by poli Aleiens in Washington. The changes Sin the personnel of the Senate are emphasized by the retirement of three amen, who for more than a quarter of a contary have been dominting figures in the deliberations of that body. Senator Hale of Maine, who will be succeeded by a Democrat, is the aldest Senator in point of service, with a record that has been equalled by few other men in public life. . He has served six years in the House and thirty years in the Senate. :Senator Aldrich of Rhode Island, who has served within a few months me long as Senator Hale and Senator, Burrows, of Michigan, will be succeeded by Republicans. Senator Lodge of Massachusetts, who entered the Senate in 1893, is the only member of Jong service to be re-elected this year. With the retirement of the Sena-

tors referred to Senator Penrose will rank eighth in continuous service in the Senate. Mr. Penrose, entered that body March 4, 1897, the date of William McKinley's first inauguration. Of the group of Senators who have served a longer period than these three are Democrats. In the discussion of the Senate leadership the mame of the Pennsylvania Senator mavaribly is mentioned. It is coneceded that no other Senator possesses higher qualifications for this work than Senator Penrose. He has Theen identifined with every measure of Emportance that has come before the Senate in recent years and those who Zillowed the progress of the tariff Megislation of this Congress were effectly impressed by the record he an ide as a member of the committee that propored the tariff bill and as a disbater.

With the retirement of Senator Aldrich, Senator Penrose will be regorded the highest authority in the Senate on the Mariff system of this mittee would accomplish for better country. In the bettle over tariff results if they would stop building their low tariff bill in the coming ineist upon playing football.

Congress the Penneylvania Senator will be the most conspicuous figure in the direction of the course of those Republicans of the Senute who will resist the accempt to descroy the protective system.

A Comprehen ive Policy

State Senator. William C. Sprou! of Delaware county, known as the "father of good roads legislation" in this State, has announced the outline of the bill which he will introduce in the present session. He is confident that it will receive the support of both breaches of the Legislature and

The plan proposes a reorganization of the State Highway Department. It is proposed to place the maintainance of roads throughout the State under the supervison of district superintendents somewhat along the lines of our school system. State engineers will prepare plans, and the State will contribute to the cost of contruction and maintainance. The State Highway department, with the approval of the Governor, will prepare plans for main or market roads connecting throughout the State.

Further details are to be worked our, the idea being to inaugurate a continous policy of road construction and improvement on the part of the State. This bill should commend itself to taxpayers for the direct saving it will effect in each locality. and to the public in general for the economic benefits it will confer on the my pleasure to look over for years."

HISTORY ON A TUSK.

Picture Made by a Cave Man Millions of Years Ago. Long ago, so long that even a scien-

list would hardly dure venture a guessas to the date, a man clad with only a wūd beast's skin about his loins was sitting at the mouth of a care in one of the rocky highlands in what is now southern France. He was scratching of an ivery tusk, perhaps picturing for some yourhful admirers adventures shrough which he had passed or aulmaly he had stain. That fvory chip was stored away as a treasure, to be-Dist and forgotten after the cave man's death. One day a man named Lartet. digging in the cavern floor, found it On it was scratched a very fair representation of the hairy elephant orobably at once the oldest picture and the oldest human record in ex-

We know the cave man was a faithful workman, for the melting ice fields. of Siberia have yielded a perfect specimen of this extinct mammal, and the paleolithic picture is a true copy. Not only has this ancient sculptor given us a sample of the earliest art, but be bas left us, more valuable than all, a historical record of his time, for this ruse picture is simply a page from the cave man's history which, translated: into twentieth century English, says, "Nen, thinking men, were contempocaucous with the hairy elephant."

No record that any of humankind. have ever left is half so ancient as this. The oldest Egyptian papyrus in l a thing of yesterday compared to this! paicolithic sculpture. While the cavemen was living in Europe the valley. of the Nile was yet only a wild waste. Egypt was not yet Egypt, and civilizathen as we know it had scarcely made æ beginning.—Lippincott's.

MISSION OF THE LAND.

To Produce Commodities For the Same ice of Mankind.

The mission of the land is to produce and keep on producing food: lixe stock, lumber and other commodities for the service of man. He who owns land and is indifferent to this is guilty of a moral wrong, and he who takes good land out of commission and suffers it to lie unproductive and useless is guilty of a greater one. This is the only criterion by which we can properly judge of the right of ab-lodividual to own land in large tracts.

The good results attendant upon small individual holdings are natural. The purposes of nature in the upward evolution of man are usually better carried out in this way, and not because, as is so frequently argued. every man bas an inherent right to its ownership. The lazy, the incapable and the densely ignorant assuredly "Well, Wille," she said, "have you have no such right, and land is too precious and its mission too high to be thus wasted.

If the owner of a great country estate can farm his land as well as or better than it it were in small boldlogs: if, following the precept of Swift. be made two ears of corp or two before: if he supply his section with a well and good. No one with any knowledge of economics could say be was doing any injury to the world or marking. It is not the amount of land that he owns, but what he does with it for which be is morally responsible. - Lavid Huffum in Atlantic.

BRAINY BABY.

John Stuart Mill Wax a Genius at Three Years of Age

At three years of age John Stuart Mill began the study of Greek, with "arithmetic as an evening relaxation." algebra and had to act as tutor to the No. 4. Jounger children. He was a stern and

efficient tutor At twelve he began scholastic logic and political economy-the latter his main lifework.

At fourteen, while paying a long visit to Sir Samuel Bentham in southern France, he learned French as a relaxation from studying two or three bours before breakfast, five hours between breakfast and dinner and two or three in the evening. Being for the time master of his own bours and not subject to a stern father, he took lessons also in his spare hours in music, sing ing, dancing, fencing and riding, but never became proficient

At sixteen Mill could speak in debate with adults with ease and freedom At eighteen he contributed to the Westminster Review. At twenty-one be was made assistant in the india office and received a large salary for those days.

But Mill was bald at twenty-two. He did not marry until he was forty five. He himself said: "I pevet was a boy It is better to let nature bave its own way."

Jewelry Store Romances. A wedding ring whose scratched and dulled surface bespoke years of bard service at washtub and dishpan lay

on the jeweler's work table. "Why has it been laid up for repairs?" a visitor asked. "Has warriage proved a failure?"

"On the contrary, it has turned out a great success, and the ring has been ! brought back to bear witness." said the jeweler "See this new inscription, 'Ten years of fidelity and love.' That sounds pretty good, doesn't it? No failure there. Five or ten years from now, if they are both alive, some body will probably add another post script and so on at regular intervals to the end of the chapter Jewelers meet more of these little romances than the unsentimental person would dream of."-New York Sun

Steel Pan Helps Forgers.

The crime of forgery has been facilitated and increased by the modern introduction of metallic pens, gold and steel, says a writer in the Indianapolis News. The old fashioned quill pen was smooth and pleasant to write with, though it sometimes balked and sputtered, but it did not lend itself to skillful imitations as easily as the metallic pen does. The crime of forgery doubtless has been promoted by the almost universal education of modern times. In an age when everybody writes and when many are skillful penmen forgeries are much more frequent than they were centuries ago, when the person who could bandle a pen was an exception. Many modern criminals make a living by committing forgeries, victimbing betels, banks, capitalists and busi Desa men generally.

Domestic Economy. "Hey, won." exclaimed the braw. bonnie north countryman, "thrift is a wunnerful thing!"

Here the features of the women, even the features of the beautiful woman, are molded, while the rent-London Tit-Bits. would ure chiesled. Gerthauf's.

Two Dimensional Vision.

Most people do not know, that they ought to be very thankful for having i both eyes in one plane instead of having them one on each oide of the head If the latter obtained no one could tell that an object had more than two dimensions until experience and the sense of touch educated the brain to it. Any one can try it for himself. Shut one eye and look at different objects. They appear flat. With binocular vision two views of each object are obtained and neither is exactly like the other, so the idea of depth comes in.

The most easily shown example of the difference is as follows: Take u ring and hold it about two feet from the eye. With one eye closed it will take at least five trials to thrust a pencil through the ring, whereas with both eyes open it can be done on the first trial

All animals with eyes on opposite sides of the head labor under this disadvantage, as do all in ects. It is called two dimensional vision, as the che pursuing crowd and the ever near idea of depth is not possible. All this is on account of the image thrown on are incidents which can never be forthe retina of the eye being in only two | gotten by any one who has seen or dimensions.-Philadelphia Press

Woodcarvers of Burma. The woodcarners of Burma are the most skilled in the world. They select and cut the best logs along the Irawaddy river in the dry season, and these are thrown into the shrunken stream. There they lie until the freshets of the rains season lift them and bear them down to the populous cities

Then huge elephants are employed to drag the heavy logs from the stream and take them to the sawmills. They are then worked up into timbers suitable for the woodcarvers. The carvers use the figure of Buddha or some other emblem concerning the Buddhistic worship in the greater part. The details are worked out in a careful way.

Sterns of boats are carved in an elaborate manner, and some of them would be worth a fortune in this country. The prow of the boat is usually ornamented with a figurehead of very elaborate carving. The art of woodcarving is handed down in the families in Burma, the children being, jury and directed them to acquit the taught by their fathers. - Wichita Eagle.

The Restaurant Piccole.

Writing from Dresden, an American eays: "There is at teast one thing in . the prisoner was innocent of the mura German restaurant for which one, der. "But." be added, "we find him would look in vain in our country, guilty of sthealing my ould gray mare That is the piccolo You may think | three weeks ago." that I mean a musical instrument and that any orchestra in any country might have one of these, but you are wrong My piccolo, the one at the restaurant, is a buman being. He is a boy twelve to fifteen years old, who assists the regular waiters. He wears the tegulation waiter's costume and looks funny in his spiketail coat. He is as solemn as a funeral, knows how to extract a rip and for the high priv flege of retaining his place and taking his first degree as a waiter must en fure much abuse at the hands of the bead walter and his underlings He is a funny little fellow, this piccoio. who because of his appearance could never prosper in our country."-New York Tribune

"ORAN AMOK!"

The Bloodthirsty Malay When He Is Maddened by Frenzy.

"Amok" is a religious tanaticism, e madness under which a man makes up his mind tookill any one he can until he himself is killed. Brought on by drink or religion or from whatever cause, the process is the same. The madman serves his creese and rushes. beadlong down the street, cutting at every one be meets. To any one who bas seen a creese or a parang further detail is unnecessary.

A man running anok is as a do:

with hydrophobia, but the pame cause! ed by the former is by far the worse Like the mad dog, the madman is tellowed by a noisy tabble, who sooner of rater run into their man and extermnate him. When this vengeful rabba is made up of bloodthusty Malays and Chinamen its wild rage and fury are beyond control, beyond description The clamor and bloodcurdling yells of ing short of "Oran amok, oran amok." heard them. The bravest qualls when a suddenly turning the corner of a street and ears are precied with the cry of i "Oran amo)." and a few yards off he sees a Maiay running straight at him brandishing in his band the bloods creese with which he has already slaughtered all in his way.-London

Guilty Anyway.

: hronicle

The most striking instance of a van-Ished man coming again to light to take part in leval proceedings is that which occurred in a case where Daniel O'Connell was defending a man indicted for murder The case for the prosecution seemed as clear as possible, and O'Copuell contented himself with fewer questions than were to have been expected of so eminent a cross examiner. When the case for the crown had closed be announced that he had but one witness to call, but that witness was important to the case. He was the murdered man, very much alive. There was no doubting the man's identity-everybody knew it The judge therefore turned to the his wife in tones of thunder "come prisoner. To his amazement, however, they returned a verdict of guilty. Asked for an explanation, the foreman observed that they had no doubt that

Recipe For a Flower Garden.

and pebbles, stir in sufficient clay to ram down hard and score the surface with a rake. Add carefully ten packets of seeds of the most magnificent flower known that will grow anywhere and under any conditions, throwing up a continuous succession of enormous flower trusses from March to November, each petal five inches across and of the richest and most glowing tints. This is the commonest of all flowers and will be found listed on any page of any florist's catalogue. Set the whole out to rise, keeping it moist and warm. After allowing the mass to rise four-months sprinkle red spiders and green aphides plentifully over the top and soak well with tears. The net result may be preserved in a small bottle of alcohol for future reference.--Philadelphia North American

A Craving For Sweets. Advocating the use of sweet fruits

preserves, sugar and good candy by children, Dr. Woods Hutchmson m Success says that a craving for sweetis nature's call for the substance which is "a full blown member of the great trinity of nutrient materials, suc ar (carbohydiate), meat (protein) and fat. Sugar is wood, coal, gasoline for the muscle cogine. Every time the tiny engine gives one of its rhythmical explosions-that is to say, when a mucle contracts—a certain amount of sugar is burned up. It is fortunate for meania prison a michalipe contrainme deprives of tweets that the buman This was made in 1680, and it is deem body can manufacture sugar out of many foods, out of meat, milk, vegetables and grains; otherwise the body would go into the desperate business tiaspes, which is precisely what dia-Mrs. Bingo- Certainly bot. Gooden. In the Inc

A glacier when it distodges itself and sails away over the Arctic ocean never travels alone. In the wake of every large one floats a line of similar companions. The Uskimos call this onenomenon "the duck and ducklings," and any one who has watched the progress of the wild duck followed by her brood will appreciate the antimle of the name. Strange as it may seem plants grow and blossom upon these great ice mountains. When a glacier is at rest moss attaches itself to it. protecting the ice beneath, just as sawdust does. After a time the moss decays and forms a soil, in which the seeds of buttercups and dandelions. brought by the wind, take root and flourish. Those who have traveled much in arctic lands say the poppy does not bloom during the brief north ern summer.

there is a respectable alarm clock that warned sleepers it was time to get up when Charles i. was amy or England ed a remarkable piece of workman ship. In form it resembles a lantern wherein is a lighted candle, the wick of which is automatically clipped ev of manufacturing sugar out of its own ery minute by a pair of scissors. The and at the same time the movable sweetmakers out of the nationt's diet sides of the lantern fall, and the room to Gooded with light.

YEARS OF

All Relieved by Lydia E. Pinkham's Vegetable Compound.

Sikeston, Mo. -- "For seven years I suffered everything. I was in bed ान् पृश्चिम four or five days ·lat a time every month, and so weak could hardly walk. I cramped and had backache and headache, and was so nervous and weak

that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to lease me at those operation. I would not listen to that,

and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife. I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any onlinary weman, any day in the month. I wish I could talk toevery suffering woman andgir " -Mrs. DEMA BETHUNE, Sikeston, Mo. The most successful remedy in this

country for the cure of all forms of female complaints is Lydia E. Pink. ham's Vegetable Compound.

It is more widely and successfully used than any other remedy. It has cured thousands of women who have been troubled with displacements, indammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means and failed. Why don't yo : tryit?

Honest Advice to Consumptives

Somehow there exists a vast amount of skeptleism as to the possibility of curing Consumption. . . We state none but facts, and are sincere in what we assert . . If ourselves afflicted with Tuberculosis, we should do precisely what we ask others to do-take Eckman's Altera-tive promptly and faithfully . The reason we should do this, and warrant we have for asking all Consumptions

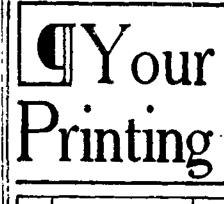

we have for asking all Consumptives to take it is that we have the reports of many cures, one of which follows:

1619 Susquehanna Ave., Phila, Pa.
Gentlemen. For two years I was afflicted with hemorrhages of the lungs, the number totaled nearly one hundred. Our family physician advised another climate as to remain would probably be First Physician—Did he rally from the operation? Second Physician—well, I should say so; just look at the sufficiently to walk about the house I was sufficiently to walk about the house I was left with a frightful hacking cough, which no medicine I had taken could affectiate. I was again advised to go to another part of the country, it was at this time. March, 1902, that I learned of Eckinate's Algerative. In a short time my cough was gone and I was pronounced well or cured. Since that time I have that it is a short time of the cough was some and I was pronounced. "My wife always lets me have the had two slight attacks of pneumonia act word" remarked the meek looking and I have resorted to no other medicine to effect a cure.
I am at present in excellent health and

feel that as long as I can obtain E.k. man's Alterative. I have no fear of Con-

man's Alterative. I have no fear of Consumption I cannot speak too highly for the good it has done (Signed) HOWARD L. KLOTZ. A HARD TASKMASTER.

Agassiz Forced His Pupils to Find Out For Themselves.

When I sat me down before my-tin oan Agassiz brought me a small fish. placing it before me with the rather toen requirement that I should study it, but should on no account talk to any one concerning it or read anything concerning tishes until I had his permission so to do. To my inquiry, 'What shall I do?" he said in effect: Find out what you can without damaging the specimen. When I think that you have done the work I will question you." In the course of an hour I thought I had compassed that fish. But Agassiz, though always within call, concerned himself no further with me that day nor the next nor for a week. At first this neglect was distressing. But I saw that It was a game, for he was, as I discerned rather than saw, covertly watching me. So I set my wits to work upon the thing and in the course of a hundred hours or so thought I had done much, a hundred times as much as seemed possible at the start. I felfull of the subject and probably ex pressed it in my bearing. As for words about it then, there were none from my master, except his cheery "Good morning." At length on the sorotth day came the question "Well?" and my disgorge of learning to him as he sat on the edge of my table, puffing his eigar. At the end of the hour's telling he swung off and away, saying, "That is not right."

I went at the task anew, discarded my first notes, and in another week of ten hours a day labor I had results which astonished myself and satisfied him. Still there was no trace of praise in words or manner. He simified that It would do by placing before me about a half a peck of bones, telling me to see what I could make of themwith no further directions to guidme. Two months or more went to this task, with no other help than ac Interesting News Items Con- occasional looking over my grouping with the stereotyped remark, "That is not right." Finally the task was done, and I was again set upon alcoholic specimens. - "Autobiography of Prothesor Shaler" in Atlantic.

Olden Tea Table Etiquette.

Tea table etiquette was somewhat complicated in the days of that "bardened and shameless tea drinker." Dr. Johnson, when many people thought pothing of drinking ten or twelve cups at a sitting. It was considered proper for the cups and saucers of a party of tea drinkers to be all passed up to the Mrs. Hughes of McKesn evenue hostess in one batch when replenishorder that each person might be sure nor require any more were supposed to place the spoon in the cup. And this H. M. Smith was a Sunday visitor writer remembers a very ancient dame teaching a small boy to place his spoon in his cup after the first cup had been emptied. He wondered for the reason. Now he knows that tea was were not expected to ask again.-St. James' Gazette.
